Reviews

This published publication is fantastic. it had been writtern very perfectly and useful. Once you begin to read the book, it is extremely difficult to leave it before concluding.
(Junius Herman)

THINKING ABOUT HARMONY: HISTORICAL PERSPECTIVES ON ANALYSIS

Cambridge University Press. Paperback. Book Condition: New. Paperback. 342 pages. Dimensions: 9.5in. x 6.7in. x 0.9in. Focusing on music written in the period 1800-1850, *Thinking about Harmony* traces the responses of observant musicians to the music that was being created in their midst by composers including Beethoven, Schubert, and Chopin. It tells the story of how a separate branch of musical activity - music analysis - evolved out of the desire to make sense of the music, essential both to its enlightened performance and to its appreciation. The book integrates two distinct areas of musical inquiry - the history of music theory and music analysis - and the various notions that shape harmonic theory are put to the test through practical application, creating a unique and intriguing synthesis. Aided by an extensive compilation of carefully selected and clearly annotated music examples, readers can explore a panoramic projection of the eras analytical responses to harmony, thereby developing a more intimate rapport with the period. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
